Cervical Cancer Screening Saves Lives!
Help Protect Women’s Health and Ensure Continued Access to Comprehensive Cervical Cancer Screening

Women deserve and need full access to the best health care information and services possible to live long, happy and productive lives. That’s why the National Association of Nurse Practitioners in Women’s Health believes the U.S. Preventive Services Task Force should include co-testing, Pap and HPV tests combined, in its list of recommended screening procedures. In our clinical experience, we know co-testing saves lives. The data confirms the value of co-testing, too.\textsuperscript{1,2}

When it comes to finding cervical cancer, we shouldn’t stop halfway.
